

Cooperation Agreement - Team

The goal of this Team Agreement is to facilitate your group in establishing a solid basis as a project team that you can rely on during the entire project for coordinating your teamwork and for dealing with problems effectively, in the case that they occur.

1. Contact information

	Group name	CIP Project
	Member	E-mail
1	Julian Purtschert	julian.purtschert@stud.hslu.ch
2	Samuel Amuzu	samuel.amuzu@stud.hslu.ch
3	Nick Schaufelberger	nick.schaufelberger@stud.hslu.ch

2. Defining your individual and team goals in this project

Please state your team goal for this project:

Deliverables:

Member	Deliverables
Julian Purtschert	Data Cleaning, Research Question 3, Streamlit, Report
Samuel Amuzu	Data Cleaning, Research Question 2, Streamlit, Report
Nick Schaufelberger	Data Cleaning, Research Question 1, Streamlit, Report

3. Defining rules of conduct

Please specify consequences for a member of your team who does not adhere to deadlines, fails to attend meetings, or does not respond to e-mails/calls:

Failure to adhere to deadlines, attend meetings, or respond to communications will result in a formal warning. Continued non-compliance will lead to escalation, including notifying the lecturer and, if necessary, potential removal from the project team.

Please state what steps you will take when you are not satisfied with each other's contributions:

If a team member's contributions are unsatisfactory, we will first address the issue through direct communication and constructive feedback. If the problem persists, we will collectively discuss potential solutions, such as redistributing tasks or providing additional support. If no improvement is made, we will escalate the issue to the lecturer for further guidance.

Once you have drafted your Team Agreement, meet and discuss any edits or changes that are warranted. Upload the final version of it in the course folder on ILIAS.
